PRECISE
## TESTING SOLUTION PVT. LTD.

With technology transforming the business world into a digitally embedded ecosystem, software solutions are having an increasing influence. While optimizing business prospects, software solutions must be fluid and error-free in order to achieve their goals. This is where QA & software testing services come in. It analyzes software for bugs and errors and evaluates whether it meets business requirements. It's a continuous process, otherwise known as Software Testing Lifecycle (STLC), working along with the software development life cycle. And it verifies functionalities and validates app performance in each stage of development. Given the criticality, the service plays a crucial role in any business. Therefore, it is important to ensure that every line of code written for a project is bug-free and meets all technical and business objectives. Precise Testing Solution is a seasoned name for such assured solutions.

Recently, we got in touch with the firm's founder and CTO, Mr. Vikash Kumar, for our upcoming edition, "10 Best Indian CEOs to Esteem in 2022." The following article illustrates his leadership abilities and what makes Precise Testing Solutions a well-regarded software solutions firm.

VIKASH KUMAR
CTO

A NOTABLE TECHNOCRAT WITHIN THE SOFTWARE TESTING REALM

THE TECHNOPRENEUR AT THE HELM

Vikash is a serial entrepreneur with around 2 decades of IT experience, with principal focus on software testing. Prior to Precise Testing, he co-founded a software company that develops inclusive project management tools for collaborative and decentralized ecosystems. He has considerable expertise in testing desktop, web, and mobile applications, as well as using customized testing tools to meet unique requirements. He also has vast experience in agile techniques, having worked as a scrum master for a global tech giant. With such a background, he uses Selenium, QTP, SoapUI, and MonkeyTalk automation for automated testing and mobile application testing with finesse.

His experience makes him the backbone of Precise Testing and helps him navigate through waves and tides. He is also an active member of the Mozilla Testing group, OWASP, and other open source communities. On the other hand, Vikash is a dedicated leader with proficiency in team building. Under his stewardship, Precise Testing has been blessed with a strong leadership panel and a team of robust techno-enthusiasts. The leaders have been part of many accomplished testing projects in many Fortune 500 companies. As the head honcho, Vikash has helped them unlock their full potential and focus on personal growth that can align with organizational growth. He has structured a collaborative model that focuses on building sustainable relationships with clients, employees, and partners.

AN ACCREDITED SOLUTION PROVIDER

Headquartered in Noida, Precise Testing is a one-stop-shop for all kinds of QA and software testing solutions. It helps clients optimize application quality, performance, and availability by employing proven testing methodology and industry best practices. Its wide range of offerings include:

* Web and Window based application testing
* Automated software testing
* Strategic test management
* Performance and load testing
* Software, Hardware & Network testing
* Security Testing and Project Management

The solutions are tailored to address a wide range of IT needs, enabling the fast deployment of high-quality software while reducing risk, cost, and estimated time to achieve goals. Precise Testing Solutions is accredited under ISO 9001: 2008 and 27001:2013 certifications. Setting sail in 2012, the company has satisfied 400+ clients and tested e-commerce systems, multi-lingual globalization software, social media, mobile applications, Windows applications, IVRS Software, and mobile games. It has completed 40,000 hours of testing and eradicated approx. 2,40,000 bugs in applications. Precise Testing is also an STQC-empaneled vendor (Govt. of India) and is in the process of being empaneled by the Indian Computer Emergency Response Team (ICERT).

THE INTRINSIC COMPETITIVE FACTORS

Software is one of the most congested and competitive sectors in the Indian economy. It has grown in value as the country's technological transitions have intensified. Putting it simply, almost every business across verticals is driven by software solutions. So, how does Precise Testing ensure competitiveness? The firm stands on entrepreneurial values that uphold client-centricity, cost-efficiency, timely delivery, integrity, and continuous improvement. This helps in truly embracing clients' requirements and challenges and meeting them with marksmanship. Precise testing is one of the few software companies that works around the client's schedule. It is made certain that every solution gives a satisfactory ROI and that the services are fairly priced and delivered on time.

The astute practices and expertise are driven by extensive R&D on process innovation. Precise Testing places a premium on constantly scouring the market to adapt innovative technologies, emerging software testing practices, Quality Assurance (QA) compliance, and talented resources that can augment their organizational framework. They also attend leadership conferences to stay abreast of emerging technologies and innovations and improve team strengths.

AN ENTHUSIASTIC CREW ON BOARD

Enthusiasm stimulates the drive for success, and the team

CHETNA SONI
CEO

at Precise Testing maintains it as a habit. The firm has a multidisciplinary team comprising talented programmers, digital marketers, software testers, and ethical hackers. Working collaboratively, they create solutions that reflect quality and adept practices. They even go the extra mile, providing free testing to clients if any bugs are found. In return for their efforts, the firm goes to every extent to keep the team engaged and dedicated. The team is nurtured through various internal training programs, timely guidance, etc., creating an ecosystem of constant progress. People are the critical assets of any firm, and Precise Testing ensures every asset keeps augmenting its value.

RAISING A TOAST TO THEIR ACHIVEMENTS

Nearly a decade in business, Precise Testing has showcased impactful growth. The industry has widely recognized its efforts, team dedication, and precision in quality. Along with software testing, the firm can assist in project management, CMMI, and ISO audits with skillful resources. Their services and commitment to providing tailored solutions is also acknowledged by the media. The firm was shortlisted as "20 Most Promising Software Testing Solution Providers -2018" by CIO Review Magazine and "The 10 Most Advanced QA & Testing Companies of 2019" by Mirror Review Magazine. Precise Testing has recently become a certified NASSCOM member, which is a colorful feather in its cap.

No doubt, the achievements, and milestones reflect Vikash's leadership and efforts. But then again, no accomplishment is a single person's job. It's always a team effort, and the leader is just the front runner. In the years ahead, the company will keep improving its business metrics and seek new prospects to strengthen its market position.
